3 PRIORITY INVESTMENT OPPORTUNITIES FOR PPP PROJECTS

4 PROJECTS BY SECTOR

5 PPP PROJECTS PIPELINE

6 INVESTOR INFORMATION

1. INTRODUCTION

Public–Private Partnerships (PPPs) are commonly used as an effective way to attract private sector investment in infrastructure and improve public services. Through PPP agreements, governments can leverage private sector funding, innovation, and technical skills while still overseeing policies, regulations, and public service management.

In Tanzania, the implementation of **PPP projects is guided by the Public–Private Partnership Act (Cap. 103) and its supporting regulations**, which establish the legal and institutional framework for identifying, preparing, procurement, and managing PPP projects. The Public–Private Partnership Centre (PPP Centre) is responsible for coordinating and promoting PPP initiatives and supporting contracting authorities in the preparation and execution of PPP projects across various sectors economy.

The significance of PPPs has been further reinforced in the **Fourth Five-Year Development Plan (FYDP IV)** and the long-term goals of the **Tanzania Development Vision 2050**. Implementing FYDP IV is projected to require **around TZS 477 trillion in investment**, with the **private sector expected to contribute approximately TZS 334 trillion**. Much of this investment is anticipated to be mobilized through PPP arrangements, underscoring the importance of a strong pipeline of well-prepared and bankable PPP projects.

To support this goal, the **PPP Centre regularly compiles the national PPP Projects Pipeline** to provide information on projects that are being prepared or considered for implementation under PPP arrangements. The pipeline acts as a key planning and information resource for government agencies, development partners, investors, and other stakeholders by showcasing projects at various stages of development, including concept, pre-feasibility, feasibility, procurement, negotiation, and beyond implementation.

The Tanzania PPP Projects Pipeline presented in this document includes projects across several sectors such as transport, energy, water, trade and logistics infrastructure, education, health, fisheries, urban development, and local government infrastructure. By publishing this pipeline, the Government aims to enhance transparency, promote private sector participation, and accelerate the implementation of infrastructure projects that support sustainable economic growth and improved public service delivery in Tanzania.

2. PPP PIPELINE AT A GLANCE

Table 1: The summary of 131 PPP Projects by stage in Tanzania (mainland) is as follows;

S/N	Stage of PPP Project	Total Number of Projects per Stage
1.	PPP Projects under implementation	10
2.	Projects at Contract Negotiations	3
3.	Procurement (PS)	3
4.	Feasibility Study Stage (FS)	14
5.	Pre-Feasibility Study Stage (PFS)	50
6.	Concept Note Stage	51
	Total Number	**131**

3. PRIORITY INVESTMENT OPPORTUNITIES FOR PPP PROJECTS

This section presents **90 PPP projects** identified in the Pipeline as priority investment opportunities for private sector participation through investment, strategic partnership, joint venture, concession, or other PPP arrangements, subject to the applicable legal and procurement processes.

Table 2: The summary of 90 PPP Projects by stage in Tanzania (mainland) with detailed project information presented in Appendix 2: Priority Investment Opportunities for PPP Projects.

S/N	Stage of PPP Project	Total Number of Projects per Stage
1.	Procurement (PS)	1
2.	Feasibility Study Stage (FS)	3
3.	Pre-Feasibility Study Stage (PFS)	35
4.	Concept Note Stage	51
	Total Number	**90**

4. PROJECTS BY SECTOR

The 131 PPP projects in the Pipeline are distributed across various sectors, reflecting the diversity of infrastructure and public service investment opportunities available under the PPP framework.

Table 3: The summary of 131 PPP Projects by sector in Tanzania (mainland) is as follows;

S/N	Stage of PPP Project	Total Number of Projects per Stage
1.	Infrastructure	14
2.	Transport	28
3.	Trade & Logistics	24
4.	Education & Research	11
5.	Regulatory & Technical Services	10
6.	Housing & Real Estate	9
7.	Tourism & Hospitality	8
8.	Energy	7
9.	Fisheries & Blue Economy	4
10.	Health	3
11.	Urban & Municipal Services	3
12.	ICT & Digital	2
13.	Water & Sanitation	5
14.	Sports, Culture & Creative Industries	2
15.	Agriculture	1
	Total Number	**131**

5. PPP PROJECTS PIPELINE

This section presents the complete list of **131 PPP projects** in the Pipeline, together with their respective development stages as at **September 2026**.

Table 4.: An overview of the status of various PPP projects in Tanzania.

S/N	Name of Projects	Contracting Authority	Location	E. CAPEX- $ in Mil	Project Description	Proposed Structure	Procurement Mode	Yr
	IMPLEMENTATION STAGE							
1	The construction of modern business complex buildings.	Dar es Salaam Development Corporation (DDC)	Dar es Salaam Kariakoo Area, Ilala Municipal on Plot Number 19, Block 8, in the Central Business District (CBD) .	13.8	The DDC Kariakoo One Stop Business Complex will be the largest commercial building in Kariakoo, spanning 8 floors, including an underground basement. Covering a total area of 42,260 square feet, the complex will be located within the four streets of Mhonda, Kongo, Narung'ombe, and Msimbazi. It will offer a variety of businesses, including wholesale and retail shops, malls, stores, offices, and social halls. The complex will serve local vendors from Dar es Salaam, upcountry regions, and neighboring countries, as well as international vendors selling industrial commodities. This will help position Dar es Salaam as the economic hub in the SADC region.	DBFOMT	Direct negotiation	25
2	Operation and Maintenance of Dar es Salaam Port DP WORLD	Tanzania Port Authority (TPA)	Dar es Salaam	N/A	Aim is to improve global trade logistics through infrastructure development, innovation, sustainability, and the creation of efficient, connected, and scalable trade networks.	O&M	Special Arrangement	40
3	ADAN (Operation and Maintenance of Dar es Salaam Port)	Tanzania Port Authority (TPA)	Dar es Salaam	N/A	Aim is to develop container terminals, expanding storage capacity, and improving cargo handling systems. Enhance the efficiency of Tanzania's port facilities, particularly the port of Dar es salaam, along with other regional ports.	O&M	Special Arrangement	30

4	Bus Services Provision for the Dar Rapid Transit Project Phase I	Dar es Salaam Rapid Transit (DART)	Dar es Salaam	81.4	The project is part of the Six-Phased DART System Master Plan. The project will include the purchase, operation, and maintenance of buses. Its coverage includes 20.9 km of routes along a long Morogoro Road from Kimara to Kivukoni, with branches on Kawawa Road from Morocco to Magomeni and along Msimbazi Road up to Gerezani Kota.	O&M	Competitive bidding	12
5	Bus Services Provision for the Dar Rapid Transit Project Phase II	Dar es Salaam Rapid Transit (DART)	Dar es Salaam	220.6	The project is part of the Six-Phased DART System Master Plan. The project will include the purchase of CNG buses, operating systems, and maintenance of buses. Phase 2 extends to cover 20.3 km of the corridor from Mbagala area in Temeke District to the CBD, connecting at the Kariakoo Hub with Phase 1. The main section included in Phase 2 is on Kilwa Road, from the city center to Mbagala Rangi Tatu. Other parts of the corridor include interconnected trunk routes from South Kawawa Road at the Morogoro Road junction to Mgulani junction, and on Chang'ombe Road.	O&M	Direct Negotiation	12
6	Bus Services Provision for the Dar Rapid Transit Project Phase II-SP1	Dar es Salaam Rapid Transit (DART)-	Dar es Salaam	52.4	The project is part of the Six-Phased DART System Master Plan. The project will include the purchase of CNG buses, operational systems, and maintenance of buses. Phase 2 extends to cover interconnected trunk routes from South Kawawa Road at Morogoro Road Junction to Mgulani Junction.	O&M	Direct Negotiation	12
7	Bus Services Provision for the Dar Rapid Transit Project Phase II-SP2	Dar es Salaam Rapid Transit (DART)	Dar es Salaam	102	The project is part of the Six-Phased DART System Master Plan. The project will include the purchase of CNG buses, operating systems, and bus maintenance. Phase 2 extends to cover 10.3 km of interconnected trunk routes around Chang'ombe Road.	O&M	Direct Negotiation	12
8	Rehabilitation, renovation, operation, maintenance, management, and financing of the Tanzania-	TAZARA	Tanzania - Zambia	1,400	The TAZARA Project focuses on rehabilitating and upgrading railway infrastructure, improving operations and maintenance, and strengthening management and financing to ensure efficient, safe, and sustainable railway services while promoting regional trade between Tanzania and Zambia.	O&M	Special Arrangement	32

	Zambia railway project.							
9	Establishment of Motor Vehicle Inspection Centers (MVICs)	Tanzania Police Corporation Sole	Tanzania mainland.	116.9	This is a nationwide project proposed to cover 26 regions across the mainland with a total of 40 MVI Centers (3 MVICs each in Dar-es-Salaam, Mbeya, Arusha, Mwanza, and Dodoma regions, and 1 MVIC in each of the remaining regions).	DBFOMT	Direct Negotiation	20
10	Development of Modern Logistic Hub	Tanzania Buildings Agency	Temeke-Dar es Salaam	18	The project includes an Inland Container Depot (ICD) with a handling capacity of 1,848 containers annually, a Container Freight Station (CFS) capable of processing 2,000 TEUs per year, and modern warehousing facilities totaling 50,000 sqm. An expanded fleet of over 1,000 trucks will provide road transport services for bulk, containerized, and project cargo across domestic and regional routes. Operations will integrate digital cargo tracking, automated inventory management, AI-driven route optimization, and modern safety systems to ensure efficiency, reliability, and minimal operational losses.	DBFOMT	Competitive bidding	30
B	**NEGOTIATION STAGE**							
1	Operation and Maintenance (O&M) of the Deep Sea Fishing Vessel under the Economic and Social Development	TAFICO	DAR ES SALAAM	12	The Deep Sea Fishing Vessel Operation Project is carried out under the Economic and Social Development Program (ESDP) of the Government of Japan to support Tanzania. The project seeks to enhance Tanzania's capacity for deep-sea fishing, improve the management of marine resources, and foster economic growth through the fisheries sector. Through this initiative, the vessel is expected to: conduct deep-sea fishing operations, support training and capacity building for fisheries experts, increase fish production and national	O & M	Direct Negotiation	10

	Programme (ESDP)- Japan				revenue, and facilitate marine research and data collection.			
2.	Development of Commercial Complex and Its Associated Facilities Outside Terminal Building III at Julius Nyerere International Airport	TAA	JNIA Terminal II – Dar es Salaam	45	The project is expected to improve airport service delivery by offering a wide range of services and generate additional revenue through increased landside commercial activities.	DBFOMT	Competitive bidding	15 year
3.	Development of Four-Star Hotel with Associated Facilities at Julius Nyerere International Airport at Julius Nyerere International Airport.	TAA	JNIA Terminal II – Dar es Salaam	20.34	This project is strategically important because of airport expansions to meet increasing customer demand, the evolving aviation business environment, and the growth of tourism.	DBFOMT	Competitive bidding	15 year
C	**PROCUREMENT STAGE (PS)**							
1	Construction of Lot 1 (Kibaha – Mlandizi - Chalinze 78.9km)	TANROAD	Kibaha and Chalinze districts in Coast Region	326	The proposed toll expressway will be built on a new alignment parallel to the existing Morogoro Road. The current Morogoro Road will remain open to accommodate traffic and other road users who may choose not to pay tolls. The project will be carried out through a PPP arrangement, where road users will be charged for using the road.	DBFOMT	Competitive bidding	25

2	Construction of Lot 2 (Chalinze - Morogoro 84.9 Km)	TANROAD	Chalinze to Morogoro districts in Coast and Morogoro Region	350	The Chalinze-Morogoro road is congested and in poor condition, requiring urgent attention. The increased traffic volume is due to economic growth within the country and neighboring nations. Currently, the travel time from Chalinze to Morogoro is 2 hours, but with the proposed expressway, it will be reduced to 1 hour. The current road condition has raised travel time and vehicle operation costs. The project, to be implemented under a PPP arrangement, will involve constructing a 4-lane carriageway with a design speed of 120 km/h, modern rest areas, international standard service levels, free interchanges, and e-tolling at entry and exit points.	DBFOMT	Competitive bidding	25
3.	The development and Construction of Students Hostel at CBE Dar es Salaam Campus	CBE	Dar es Salaam	5.4	The primary objective of the project is to construct four new hostel buildings at the CBE Dar es Salaam campus, featuring a G+4 structure. This development aims to address the accommodation gap, as the current two hostel buildings can only accommodate 1.8% of enrolled students. The project will help resolve issues related to affordability, safety, security, and provide a better learning environment for students.	DBFOMT	Competitive bidding	30
D	**FEASIBILITY STUDY STAGE (FS)**							
1	Developing the Convention Buoy Mooring Project at Dar es Salaam and Tanga Port	TPA	Dar es salaam AND Tanga	6	The project involves installing standalone greenfield assets to discharge liquid petroleum gas (LPG) from large refrigerated ships offshore at Dar es Salaam and Tanga ports. It will cover the south-western part of Mji Mwema Bay in Dar es Salaam and the Chongoleani Peninsula in Tanga. The project addresses port capacity constraints at the Kurasini Oil Jetties (KOJ) in Dar es Salaam and the lack of public LPG discharge facilities at Tanga.	DBFOMT	Competitive bidding	15
2	Strengthening Cancer Control	ORCI	Dar es Salaam	55	The project aims to develop a modern, well-organized oncology center at ORCI Mloganzila and at the Cancer	DBFOMT	Competitive bidding	20

	Services In Tanzania		and Uyole campus of Mbeya		Center in Mbeya Zonal. Both are expected to serve more patients (including cancer and related cases) than the current setup, equipped with advanced facilities for cancer screening, diagnosis, and treatment.			
3	Spine and Injury Treatment Rehabilitation Centre Mbweni (MOI SITRC)	MOI	Dar es Salaam - BWENI	60.88	Muhimbili Orthopedic Institute (MOI) is the national referral super-specialist physical rehabilitation health facility established on June 17, 1996, under Act No. 7 of the Parliament. It is responsible for providing primary, secondary, and tertiary care for preventive and curative health services in the fields of orthopedics, traumatology, and neurosurgery. MOI, as a tertiary-level hospital, manages patients with orthopedic, neurosurgical, and traumatic conditions requiring specialized treatment who are referred from all over the country. MOI collaborates very closely with Muhimbili University College of Health and Allied Sciences (MUHAS) and Muhimbili National Hospital (MNH) in its day-to-day operations.	DBFOMT	Competitive bidding	25
4	Traffic Safety Project	Tanzania Police Force Corporation Sole	DAR, DODOMA, MKURANGA NA ARUSHA	19	The project is targeting the vehicles moving on the roads and in the process violate traffic rules. Essentially, the project involves installation of various systems. The technology utilized in the project is based on LIDAR Technology and can be deployed in various modes such as fixed, mobile, or semi-stationary. The fixed systems will be installed in a fixed location and operate on a power supply or solar system.	DBFOMT	Direct negotiation	12
5	Verification and Inspection of Natural Gas Measuring Instruments	Weight and Measures Agency (WMA)	Misugusugu, Kibaha, Dar es Salaam, Mtwara, and Arusha	1.32	Verification and certification of 1,800 natural gas instruments annually, along with calibration to achieve 0.5% accuracy both in-lab and on-site	DBFOMT	Competitive bidding	20

6	Petroleum Bulk Tank, underground Tank and Tanker Cleaning Service	Weight and Measures Agency (WMA)	Dar es Salaam, Mtwara, Tanga	12	Annual cleaning of 600 storage bulk tanks, 12,000 underground tanks at petrol stations and industries, and 8,000 road tankers using high-pressure washers, vacuum trucks, and robotic cleaning systems.	DBFOMT	Competitive bidding	15
7	Verification of Pressure and Temperature Measuring Instruments, LPG Cylinders, and the Establishment of a Modern Calibration Laboratory	Weight and Measures Agency (WMA)	Kibaha, Dar es Salaam, Mtwara, Tanga	9.86	Annual verification of 6,000 temperature and pressure instruments and 2,000 LPG cylinders to ensure compliance with OIML R137, along with the upgrade and expansion of the Kibaha Calibration Laboratory into a 1,000 m² modern facility equipped with dry block calibrators, deadweight testers, and hydrostatic test benches.	DBFOMT	Competitive bidding	20
8	Verification and Inspection of Bulk Oil Flow Meters, Pipelines Pigging, Pipeline Integrity, Bulk Tank Thickness and Cathodic Protection.	Weight and Measures Agency (WMA)	Kibaha, Dar es Salaam, Mtwara, Tanga	7.85	Establishment of a specialized 8,000 square foot inspection laboratory and mobile units for oil flow measurements, verification, and inspection of bulk oil flow meters, pipelines pigging, pipeline integrity, bulk tank thickness, and cathodic protection,	DBFOMT	Competitive bidding	20
9	Verification and Inspection Electricity Meters and Establishment of a Modern Control Room for Monitoring	Weight and Measures Agency (WMA)	Dar es Salaam, Dodoma, Arusha, and Mwanza	12.5	Verify and certify electricity meters, establish a state-of-the-art control room for real-time monitoring, deploy precision calibration equipment, provide comprehensive training to WMA staff, and perform routine inspections	DBFOMT	Competitive bidding	20

10	Verification and inspection of Water Meters	Weight and Measures Agency (WMA)	Dar es Salaam,	11.09	verification, installation, repair, and inspection of water meters across Tanzania, starting with a pilot in Dar es Salaam, and includes the establishment of a state-of-the-art metrology laboratory equipped with gravimetric testing systems, automated benches, and mobile verification units, complemented by comprehensive staff training and implementation of joint inspection protocols.	DBFOMT	Competitive bidding	20
11	Verification of medical and laboratory measuring instruments.	Weight and Measures Agency (WMA)	Dar es Salaam, Arusha, Mbeya and Mwanza2	15	Verification of Tanzania's medical equipment measurement in order to enhance the accuracy, reliability, and efficiency of national measurement systems to support fair trade, consumer protection, industrial and economic growth, and compliance with international standards. The project scope encompasses the design of the verification process, financing the whole operation, and maintenance of the verification process across Tanzania	DBFOMT	Competitive bidding	15
12	Verification of airtime metering and internet bundles.	Weight and Measures Agency (WMA)	Dar es Salaam	17.66	implement end-to-end metering and billing verification, ensuring consumer protection and transparency. It includes real-time verification (99% accuracy, OIML R117-compliant), quarterly audits (1 billion records/operator/year), calibration (±0.5% error), training (50 WMA inspectors/year), and a 10,000 sq ft laboratory in Dar es Salaam.	DBFOMT	Competitive bidding	30
13	Construction of Five – Star Hotel At Arusha Airport	TAA	Arusha	11	This project is strategically important due to the expansion of airports to meet rising customer demand, the changing aviation business environment, and the growth of tourism activities.	DBFOMT	Competitive bidding	25

14	Constructing DDC Mlimani Business Complex in Kinondoni Municipality-Dar-Es-Salaam	Dar es Salaam Development Corporation	Dar es Salaam	10.04	This project involves the development of the DDC Mlimani Business Complex, a modern commercial facility (Basement + Ground + 2 Floors) on Plot No. 417, opposite Mlimani City along University Road in Dar es Salaam. The development will provide retail, office, banking, restaurant, storage, and social hall facilities, with structural provisions for future expansion to six floors. The project aims to generate sustainable revenue for DDC, promote private sector participation through PPP, increase commercial space, enhance government revenue, and create employment opportunities by transforming underutilized public land into a productive, income-generating asset.	DBFOMT	Competitive bidding	25
E	**PRE FEASIBILITY STUDY STAGE**							
1	Service Provision for Dar Rapid Transit Project Phase 3	Dar es Salaam Rapid Transit (DART)	Dar es Salaam	135.5	The project is part of the Six-Phased DART System Master Plan. The project will include the purchase of CNG buses, operating systems, and maintenance of buses. It covers the area from the Old Postal Office in the city center to the Gongo la Mboto neighborhood in the southwest of the city, with a branch from Kariakoo through Uhuru to TAZARA. The corridor consists of Maktaba Street, Bibi Titi Mohammed Street, and Julius Nyerere Road.	O&M	Competitive bidding	12
2	Service Provision for Dar Rapid Transit Project Phase 4	Dar es Salaam Rapid Transit (DART)	Dar es Salaam	135.5	The project is part of the Six-Phase DART System Master Plan. The project will involve the purchase of CNG buses, operating systems, and maintenance of buses. It covers Bibi Titi Mohamed Road from Maktaba Street junction to Ohio Street junction (0.23 km). The phases continue with Ali Hassan Mwinyi Road (from the junction of Ohio Street to Morocco) (5.92 km) and New Bagamoyo Road from Morocco junction to Tegeta (DAWASA Daladala Bus Station) (20 km). Finally, the phase includes a spur of Sam Nujoma Road from its junction with New Bagamoyo Road to Ubungo junction (4 km).	O&M	Competitive bidding	12

3	Construction of IRDP Student Accommodation Project	Institute of Rural Development Planning-IRDP	Dodoma Municipality	5.5	Resolve students' accommodation problem; increase affordability/lower hostel rates; modern and improved infrastructure; provision of better facilities to students; improved safety & security for students; increase in income of the institute; increase in enrolment of students in institute, increased employment opportunities	DBFOMT	Competitive bidding	30
4	Construction of Hostels at Tanzania Institute of Accountancy – Mbeya Campus	Tanzania Institute of Accountancy (TIA)	Mbeya	2.2	Resolve students' accommodation problem; increase affordability/lower hostel rates; modern and improved infrastructure; provision of better facilities to students; improved safety & security for students; increase in income of the institute; increase in enrolment of students in institute, increased employment opportunities	DBFOMT	Competitive bidding	30
5	Construction of Hostels at Tanzania Institute of Accountancy – Dar Campus	Tanzania Institute of Accountancy (TIA)	Dar es Salaam	6.6	Resolve students' accommodation problem; increase affordability/lower hostel rates; modern and improved infrastructure; provision of better facilities to students; improved safety & security for students; increase in income of the institute; increase in enrolment of students in institute, increased employment opportunities	DBFOMT	Competitive bidding	30
6.	Operation of Vessel and Maintenance Agreement (O&M) Between Tafico And Dar Es Salaam Merchant Group (Dmg)	Tanzania Fisheries Corporation (TAFICO)	Dar es Salaam	8	The long-line fishing project will operate in the Indian Ocean within both the territorial waters and the exclusive economic zone (EEZ) of the United Republic of Tanzania. The common fish species in the EEZ include tuna and various tuna species, marlin, swordfish, skipjack, and sharks.	PPP- joint ventures	Competitive bidding	10
7	Construction of Lifelong Learning Centre (Udsm- Llc)	University of Dar es Salaam (UDSM)	Dar es Salaam	TBD	Lifelong Learning Centre (LLC) is an establishment which provides for opportunities in continuous short-term learning without providing formal qualifications. it will serve as a Centre for coordination and provision of lifelong learning throughout the East and Southern African region.	DBFOMT	competitive bidding	20

8	Chimwaga Five Star Hotel & Golf Resort	The University of Dodoma	Benjamin Mkapa Dodoma, Tanzania	34	Delivering high-quality accommodation, meeting, conference, and event services. Provision of Additional extended leisure services to diversified customers from local, regional, and international clients at global standards. Availability of exceptional recreational and sports facilities to guests. Diversified rooms (185) i.e. 10 presidential suites, 50 double beds, and 125 standard single bed rooms.	DBFOMT	Competitive bidding	30
9	Creative Arts and Design Complex	The University of Dodoma	Dodoma	40	A premier hub for fine and performing arts, the Megalithic Creative Arts and Design Complex offers 49 learning spaces, production studios, a cinema hall, theatre halls, galleries, a museum, and specialized art labs. It includes a 20,000-person fiesta field for major events and international festivals. Designed to boost tourism, employment, and artistic research, the complex plays a vital role in Tanzania's cultural and economic growth.	DBFOMT	Competitive bidding	30
10	CHIMWAGA shopping malls	The University of Dodoma	Dodoma	30	A modern three-story shopping mall (G+2) designed to offer a diverse mix of retail, banking, entertainment, and recreational facilities. It includes supermarkets, retail shops, restaurants, cafés, offices, clinics, a gym, cinemas, and specialized stores. The mall features 500 parking spaces (14,294 sqm), an outdoor kids' playground and garden (7,000 sqm), and essential amenities like lifts, escalators, and washrooms. This vibrant facility will enhance shopping convenience, leisure, and recreation for the Dodoma community.	DBFOMT	Competitive bidding	30
11	CHIMWAGA International Convention Centre	The University of Dodoma	Dodoma	38	A state-of-the-art International Convention Center designed to host meetings, conferences, exhibitions, and events. It features a 6,000-capacity multipurpose hall, 10 breakout rooms, 10 specialized conference rooms, 3 exhibition spaces, 2 VIP lounges, and 10 lounge areas. Supporting facilities include catering, a media center, medical services, security, and control rooms. This premier venue will provide a world-class event experience.	DBFOMT	Competitive bidding	30

12	Chimwaga Multi-Sports Hub	The University of Dodoma	Dodoma	373.7	The Multi-Sport Hub (MSH) is a state-of-the-art, 45,000-seat sports complex featuring a football field, athletic track, cycling and ziplining areas, multiple courts, pools, indoor sports halls, and wellness facilities**.** Designed for various sports and events**,** it incorporates eco-friendly systems and is expected to boost 13tourism, create jobs, and drive economic growth**.**	DBFOMT	Competitive bidding	30
13	UDOM Printing & Publishing Press	The University of Dodoma	Dodoma	5	The UDOM Press Unit aims to enhance research dissemination and provide high-quality printing, publishing, and paper recycling services for UDOM and beyond. With limited competition and growing demand, the project is well-positioned **to** support the manufacturing sector and expand its reach within Dodoma and across Tanzania.	DBFOMT	Competitive bidding	20
14	Centre for the Fifth Industrial Revolution Excellence	The University of Dodoma	Dodoma	72.66	A state-of-the-art facility (C5IRE) that will manufacture hardware and integrate cutting-edge technologies such as Artificial Intelligence (AI), the Internet of Things (IoT), Blockchain, Robotics, Big Data Analytics (BDA), and Automation into various industrial sectors.	DBFOMT	Competitive bidding	20
15	Biotechnology Centre	The University of Dodoma	Dodoma	33	A state-of-the-art Biotechnology Centre with facilities such as Biotech laboratories, production facilities, quality control and testing laboratories, waste management facilities, and administrative offices. The facility is expected to develop cutting edge products, conduct testing of biotechnology products, provide technical support, provide incubation spaces and offer training programme.	DBFOMT	Competitive bidding	20
16	Medical and Pharmaceutical Centre	The University of Dodoma	DODOMA	35	A well-designed, state-of-the-art Medical and Pharmaceutical Centre consist of research and development laboratories, production facilities, warehouses, quality control and testing labs, medical simulation and training Centre, pharmacy, administrative offices, conference rooms, and collaboration space.	DBFOMT	Competitive bidding	20

17	Fuel Service Station	The University of Dodoma	DODOMA	4	4 Petrol and diesel pumps, with liquefied petroleum gas, Retail stores/Shopping Avenue,3 ATM Banks, and a Fitness Centre.	DBFOMT	Competitive bidding	TBD
18	Development of a 100 MW of Solar PV and Energy Centre	The University of Dodoma	DODOMA	100	Development of a 100 MW Solar Photovoltaic (PV) Power Plant and Energy Centre to generate clean and reliable electricity, increase renewable energy capacity, enhance energy security, and supply surplus power to the national grid. The project will also promote renewable energy research, innovation, training, and technology development. It will be implemented on 400 acres of allocated land with access to essential supporting infrastructure, including electricity, water supply, wastewater and solid waste management systems, road access, and modern communication facilities	DBFOMT	Competitive bidding	TBD
19	Project for the Regulation and Monitoring of Online Gambling	Gaming Board of Tanzania	26 Region mainland	17.7	The Online Gaming Platform is designed to be a nationwide compliance tool for the Gaming Board of Tanzania and associated fiscal authorities. Its purpose is to capture, in real time, the complete transaction flows from all licensed gaming operators across the country, covering deposits, wagers, payouts, and winnings. By doing so, the system will automate the computation and reconciliation of gaming taxes, bolster enforcement capabilities, and provide granular visibility into the sector's performance.	DBFOMT	Direct Negotiation	15
20	Establishment of a one stop centre HI-TECH Service for n of identity card Chalinze, Pwani	NIDA	Chalinze Pwani	20.6	Establish a centralized, state-of-the-art NIDA Card Factory. Positioned as a strategic hub for hi-tech card services, the facility will utilize Smartcard technology to revolutionize identification processes, ensuring heightened security and ease of access.	DBFOMT	Competitive bidding	10

21	Verification, Certification, Installation, Repair, and Inspection of Taxi Meters, Vehicle Tracking Devices, and Vehicle Tracking Systems	Weight and Measures Agency (WMA)	Dar es Salaam,	8	verification laboratory in Dar es Salaam and the deployment of a network of mobile units to provide comprehensive services, including verification, installation, repair, and inspection of taxi meters, vehicle tracking devices, and vehicle tracking systems across Tanzania	DBFOMT	Competitive bidding	20
22	75 MWp/66 MWac Solar pv power project at manyoni,singida	TANESCO	MANYONI -SINGIDA	710.1 09	The 75 MWp/66 MWac Solar PV Power Project at Manyoni, Singida involves the development, construction, operation, and maintenance of a grid-connected solar photovoltaic power plant designed to generate clean and reliable electricity. The project includes the installation of solar panels, inverters, transformers, and associated transmission infrastructure to supply power to the national grid. It aims to increase renewable energy capacity, enhance electricity supply stability, reduce greenhouse gas emissions, and support sustainable economic development in Tanzania.	BOT	Competitive bidding	20
23	Construction and Operation of Boko Bus Terminal	Kinondoni Municipal Council	Boko, Dar es Salaam	TBD	Construction and operation of a modern bus terminal.	BOT	Competitive bidding	TBD
24	Development of Sisimba Modern Market	Mbeya City Council	Sisimba, Mbeya	TBD	Development and operation of a modern market facility.	BOT	Competitive bidding	TBD
25	Development of Karume Modern Market	Ilala Municipal Council	Karume, Dar es Salaam	TBD	Development and operation of a modern market facility.	BOT	Competitive bidding	TBD
26	Development of Kigogo Sambusa Modern Market	Ilala Municipal Council	Dar es Salaam	TBD	Development and operation of a modern market facility.	BOT	Competitive bidding	TBD
27	Construction of Modern	Mbeya City Council	Mbeya	TBD	Construction and operation of a modern slaughterhouse facility.	BOT	Competitive bidding	TBD

	Slaughterhouse – Mbeya City							
28	Modern Baraa Market	Arusha City Council	Arusha	1.7	Development and operation of a new market for small traders of fruit, vegetables, meat and other household items	DBFOMT	Competitive bidding	15
29	Modern Njiro Market and Dala-dala Terminal	Arusha City Council	Arusha	2.2	Development and operation of a new market for small traders of fruit, vegetables, meat and other household items., integrated with a dala-dala terminal	DBFOMT	Competitive bidding	25
30	Modern Sisimba site park	Mbeya City Council	Mbeya	2.7	Redevelopment and operation of city park with commercial activities	DBFOMT	Competitive bidding	
31	Redevelopment of Sisimba Bus Terminal	Mbeya City Council	Mbeya	2.8	Development and operation of a new bus terminal (local, regional and international buses) as a replacement of the city's main terminal	DBFOMT	Competitive bidding	25
32	Modern Uyole Bus Terminal	Mbeya City Council	Mbeya	3.6	Development and operation of a new bus and dala-dala terminal (local and regional buses)	DBFOMT	Competitive bidding	25
33	Reconstruction And Expansion Of Existing Central Market (Bondeni Ward) At Moshi	Moshi Municipal Council	Moshi	1.8	Redevelopment and operation of a market for small traders of fruit, vegetables, meat and other household items	DBFOMT	Competitive bidding	15
34	Redevelopment of Mbuyuni Market	Moshi Municipal Council	Moshi	4.3	Redevelopment and operation of a market for small traders of fruit, vegetables, meat and other household items	DBFOMT	Competitive bidding	15
35	Redevelopment of Msasani Fish Market	Kinondoni Municipal Council	Kinondoni	4.1	Redevelopment and operation of a fish market with commercial activities	DBFOMT	Competitive bidding	15
36	Temeke Sterio Market	Temeke Municipal Council	Temeke	6.7	Redevelopment and operation of a large market for small traders of fruit, vegetables, meat and other household items	DBFOMT	Competitive bidding	15
37	Development of Buguruni Modern Market	Ilala Municipal Council	Ilala	5.6	Redevelopment and operation of a large market for small traders of fruit, vegetables, meat and other household items	DBFOMT	Competitive bidding	15
38	Ilala Market	Ilala Municipal Council	Ilala	7.6	Redevelopment and operation of a large market for small traders of fruit, vegetables, meat and other household items	DBFOMT	Competitive bidding	15

39	Chanika Dala-dala Terminal	Ilala Municipal Council	Ilala	1.7	Development and operation of a new dala-dala terminal	DBFOMT	Competitive bidding	15
40	Arusha Solid Waste Management	Arusha City Council	Arusha	11.9	Operation and maintenance of existing solid waste management facilities	DBFOMT	Competitive bidding	15
41	Modern Shanty Town Market	Moshi Municipal Council	Moshi	1.9	Development and operation of a new market for small traders of fruit, vegetables, meat and other household items	DBFOMT	Competitive bidding	15
42	Mbeya Solid Waste Management	Mbeya City Council	Mbeya	11.7	Operation and maintenance of existing solid waste management facilities	DBFOMT	Competitive bidding	15
43	Mtwara Solid Waste Management	Mtwara City Council	Mtwara	3.4	Operation and maintenance of existing solid waste management facilities	DBFOMT	Competitive bidding	15
44	LGTI Student Hostel	Local Government Training Institute (LGTI)	Dodoma	6.3	Development and operation of an new on-campus student hostel and rehabilitation and operation of an existing hostel	DBFOMT	Competitive bidding	25
45	Development of an Integrated Commercial Complex at Mikocheni	Higher Education Students Loan Board (HESLB)	Mikocheni	TBD	The project involves the development of approximately 15,000 m² of land at Mikocheni B, Dar es Salaam (Plots No. 496–506) into a mixed-use commercial complex comprising a 10-storey Grade A office building, a 4–5-star hotel, retail and service spaces, and parking facilities. The project aims to optimize land use, generate sustainable revenue, and enhance commercial activities	DBFOMT	Competitive bidding	TBD
46	Construction of Student Accommodation	Mbeya University	Mbeya	5	This project involves the construction of four new student hostel buildings (G+4) at Mbeya University to address the existing accommodation shortage. The development aims to increase on-campus housing capacity, improve affordability, safety and security, and provide a conducive learning environment for students.	DBFOMT	Competitive bidding	TBD
47	Middle Ring road and Outer Ring road expressway	TANROAD	Dar es Salaam	1034	The project involves the construction of the 132 km Dar es Salaam Ring Road, comprising the 78.65 km Outer Ring Road (Kigamboni–Kongowe–Chanika–Kisarawe–Kibambamba–Mabwepande–Bunju) and the 53.314 km	DBFOMT	Competitive bidding	30

	projects in Dar es Salaam				Middle Ring Road (Kigamboni–Mbagala–Kitunda–Kinyerezi–Tegeta–Goba–Bunju). The project aims to reduce traffic congestion, improve connectivity to the Port of Dar es Salaam, and support urban and economic development.			
48	Masaki Mixed-use Waterfront Resort	Tanzania Police Force (TPF)	Dar es Salaam	54.47	The project involves the development of a premium mixed-use waterfront, comprises three hotel blocks with 153 suites, two commercial blocks for retail and office uses, sea-view dining and banqueting facilities, an events and assembly facility, swimming pools, wellness and leisure amenities, parking, landscaping, utilities and supporting infrastructure.	DBFOMT	Competitive bidding	25
49	Rehabilitation of Igawa -Uyole-SongweTundum a (218 Km) and Construction of Mbeya Bypass (Uyole-Songwe bypass)(48.9km)	TANROAD	Mbeya and Songwe Regions Dar es Salaam Corridor	349	The project aim to reduce congestion in Mbeya City caused mainly by transit heavy trucks using that road which increases travel time, vehicle operating cost and reduce accidents occurs along that road.Dar es Salaam Corridor is considered as one of the active corridor contributing to the GDP growth and facilitating Export/import cargos for the neighboring land locked countries.	DBFOMT	Competitive bidding	15
50	400 KV TRANSMISSIO N LINE MKURANGA-SOMANGA-LINDI	TANESCO	LINDI	591.8	The project involves the construction of a 400kV high-voltage transmission line to connect Mkuranga, Somanga, and Lindi, enhancing power evacuation and integration of the Southern regions into the national grid. It aims to ensure stable power supply and support regional development and industrial growth.	DBFOMT	Competitive bidding	25
F	**CONCEPT NOTE STAGE**							
1	Mtwara – Mbambabay – Mchuchuma/Lig anga Sgr Railway Line (1,000 Km)	Tanzania Railway Corporation (TRC)	Mtwara	5.6 Billion	The project aims to promote sustainable mobility along the Mtwara corridor by constructing a new railway line from Mtwara to Songea, with spurs to Mchuchuma and Mbamba Bay. Ultimately, it will unlock the southern regions of Tanzania that are rich in agriculture and minerals. The proposed railway spans approximately 1,000 km, running from Mtwara Port on the Indian Ocean to Mbamba Bay (Ameliabay) in Lake Nyasa, with spurs connecting to the mineral fields of	DBFOMT	Competitive bidding	TBD

					Mchuchuma coal and Liganga iron ore mines in southwestern Tanzania.			
2	Development of Railway Network for Dar Es Salaam Commuter Train Services (160 Km)	Tanzania Railway Corporation (TRC)	Dar es Salaam	8,000	The project is situated in Dar es Salaam, a city covering a total area of 1,393 square kilometers on the eastern shore of the Indian Ocean. It serves as a major regional hub and gateway, featuring a port and a trading center. The construction of the commuter railway network will include route options that connect Dar es Salaam and its surrounding municipalities and towns. This project aims to address transportation challenges by reducing congestion and providing faster, more convenient, and more affordable passenger transportation for the city.	DBFOMT	Competitive bidding	TBD
3	Development of the 1,108 km Tanga Port–Arusha–Musoma Standard Gauge Railway (SGR) with Interconnection to the Dar es Salaam–Kigoma SGR Network	Tanzania Railway Corporation (TRC)	Tanga/Arusha/ Musoma	2782	The project is expected to promote sustainable rail transport along the Tanga–Arusha–Musoma corridor by facilitating the efficient movement of freight from the Port of Tanga, while reducing road freight traffic, congestion, and associated logistics costs	DBFOMT	Competitive bidding	TBD
4	Construction of Commercial Complex and Other Facilities At Kilimanjaro International Airport (Kia)	Tanzania Airport Authority (TAA)	KIA	12	The project aim is to construct Shopping and Leisure Center in KIA at Hai district. The business plan examines the variant of project execution - Leasing commercial space of the Shopping and Leisure Center with the aim of providing esteemed customers with a wide range of services and generates more revenues to the Company.	DBFOMT	Competitive bidding	15

5	Development of CIP Terminal Building and Related Infrastructure Facilities at Kilimanjaro International Airport (Kia)	Tanzania Airport Authority (TAA)	KIA	10	The commercially important person (CIP) terminal building and its associated infrastructure including car park will cover about 4 hectors of land. The terminal will provide for private and exclusive services including shower facilities, exchange room, conference facilities as well as an internet zone equipped with PCs and a printer. Also, a parking space for 50 cars.	DBFOMT	Competitive bidding	15
6	Mwl. J.K. Nyerere Trade Fair Ground Project (Sabasaba Grounds)	TANTRADE	Kilwa Road, Dar-es-Salaam Region	347.6	The re-develop Mwl. J.K. Nyerere Trade Fair Grounds (Sabasaba Grounds) that will provide state-of-the-art exhibition facilities and infrastructure to meet the needs of national and international exhibitors	DBFOMT	Competitive bidding	TBD
7	Construction of Tunduma/Nakonde Smart Transit Border	TANROAD	Tunduma/ Nakonde Between Tanzania and Zambia	TBD	This project aims to decongest the border and improve the efficiency of cross-border trade and mobility between the two countries, addressing the challenges of long waiting times, inadequate infrastructure, and complex customs procedures. The Tunduma/Nakonde border is a critical trade point between Tanzania and Zambia, facilitating significant cross-border movement of goods, services, and people. However, the border has been facing congestion issues, which have led to delays, inefficiencies, and disruptions in trade and travel.	DBFOMT	Competitive bidding	TBD
8	Upgrading of Morogoro to Dodoma Highway (Toll Road)- 260 Km to four lanes	TANROAD	Morogoro to Dodoma Region	TBD	A key road in the Central Corridor connecting Dar es Salaam, the country's commercial hub, with Dodoma, the national capital. The project aims to improve capacity and accommodate the increasing traffic demand along this strategic route.	DBFOMT	Competitive bidding	TBD

9	Upgrading of Handeni – Kiberashi – Chemba – Kwimoro – Singida Road (384 km) to Bituminous Standard	TANROAD	Handeni (Tanga)-Singida	TBD	A strategic transport corridor providing the shortest route from the Port of Tanga to the hinterland, including Eastern DRC, Rwanda, and Burundi. The road is intended to serve as a dedicated toll route for heavy trucks, improving regional trade and freight movement	DBFOMT	Competitive bidding	TBD
10	Upgrading of Chalinze – Segera – Tanga Road (240 km) to Four Lanes	TANROAD	Coast Region-Tanga	TBD	A major road linking the Northern Corridor with the Port of Tanga. The project aims to increase road capacity, improve traffic flow, and facilitate trade and economic activities in the northern region.	DBFOMT	Competitive bidding	TBD
11	Kitonga Escarpment Bypass (27 km)	TANROAD	IRINGA	TBD	The project aims to improve traffic safety and efficiency by diverting vehicles away from the existing Kitonga Escarpment, which is prone to traffic congestion, accidents, and delays due to its steep gradients and sharp curves.	DBFOMT	Competitive bidding	TBD
12	Expressway from Dar es Salaam Port to Kibaha (42 km)	TANROAD	DAR ES SALAAM	TBD	The project will provide a high-capacity expressway to reduce truck congestion between the Port of Dar es Salaam and Kibaha, improving freight mobility, reducing travel time, and enhancing logistics efficiency.	DBFOMT	Competitive bidding	TBD
13	Expressway from Dar es Salaam CBD to Julius Nyerere International Airport (10 km)	TANROAD	DAR ES SALAAM	TBD	The project aims to improve connectivity between the Dar es Salaam Central Business District (CBD) and Julius Nyerere International Airport by reducing travel time, easing traffic congestion, and providing a reliable transport link.	DBFOMT	Competitive bidding	TBD

14	Kigamboni Bridge Near the Current Ferry Crossing	TANROAD	Dar es Salaam Region	TBD	The Kigamboni Bridge is a major infrastructure project aimed at enhancing transportation across the Dar es Salaam region in Tanzania. It is designed to provide an alternative to the existing ferry service between the Kigamboni area on the southern side of Dar es Salaam and the central area of the city, which has faced congestion and inefficiency. The proposed bridge will significantly reduce travel time, improve road connectivity, and support economic activities in the region by facilitating smoother traffic flow.	TBD	TBD	TBD
15	Water Supply Project from Lake Victoria to Dodoma via Singida	Ministry of Water	MWANZA -DODMA	2,000	This project aims to address the long-standing water scarcity challenge in Dodoma region (the nation's capital) and neighboring regions.	TBD	TBD	TBD
16	Water Supply Project from Rufiji River to Dar es Salaam	Ministry of Water	COAST REGION-DAR ES SALAAM	1,880	The Rufiji River water project is a strategic initiative crucial for water security in Dar es Salaam, the country's commercial hub. By connecting the city to this river with year-round high flow, the project will fully meet the water needs of over six million residents and industries, stimulate economic growth, and eliminate water-related obstacles to development.	DBFOMT	TBD	TBD
17	Construction and Renovation of Students Hostel at Water Institute	Water Institute	Dar es Salaam	7.2	Construction and renovation of student hostel at water institute, the proposed hostel will provide appropriate environment for living as well as studying, opportunities for informal, academic and social interchange, privacy and quite place where people are living in close proximity and are sharing facilities	DBFOMT	Competitive bidding	30
18	UNIVERSITY OF DAR ES SALAAM ICT PARK	University of Dar es Salaam (UDSM)	Dar es Salaam	125.7	The ICT Park is a "smart village" equipped with high-speed international internet and advanced ICT infrastructure. It aims to bridge the gap between theoretical knowledge and practical market applications, supporting the growth of startups and fostering	DBFOMT	Competitive bidding	12

					innovation. The park is designed to boost national wealth by promoting a competitive culture among its residents. It serves as a key hub for ICT production, offering essential services and facilities to both domestic and international companies. Positioned to attract major ICT firms, it is poised to become a central hub for technological development.			
19	Improvement of Water Supply and Sanitation In Vwawa and In Mlowo	Ministry of water	Vwawa, Tunduma and Mlowo Towns	21.6	Construction of treatment plant; construction of transmission main from Mgombezi Dam; construction of three storage tanks (2500m3) and construction of 250kms of water distribution network at Vwawa, Tunduma and Mlowo Towns.	DBFOMT	Competitive bidding	18
20	Improvement in Sewage and Sanitation Service In Tabora Municipal Council	Ministry of water	TABORA	50.446	The project aims to enhance public health and reduce environmental impact by providing eco-friendly sanitation services. It includes the construction of oxidation ponds in the Malolo and airport areas, expansion of sewer lines, pumping stations, treatment plants, and sludge disposal systems, as well as ensuring effluent quality.	DBFOMT	Competitive bidding	18
21	Construction And Operationalizatio n Of Cold Storage Facility	Tanzania Fisheries Corporation (TAFICO)	Dar es Salaam	TBD	The TAFICO cold storage project is designed to provide cold storage services to fishing companies, artisanal fishermen, and food processors. Its goal is to support the growth of the fishing and food processing industries by offering high-quality cold storage. The project will offer three key services: exclusive cold storage, industrial cold storage, and individual cold storage	DBFOMT	Competitive bidding	10
22	Development of the Bagamoyo Port in the Mbegani Area (TPA)	TPA	Bagamoy o	2100	The project aims to develop a modern deep-sea port for handling containerized and imported vehicles, capable of accommodating Post-Panamax vessels. The project will include dredging, land reclamation, quay and berth construction, RTG yard facilities, road and rail infrastructure, utilities, ICT systems, port buildings and operational equipment, leveraging the deep-water access and land designated for EPZ developmen	DBFOMT	TBD	TBD

23	Construction of Kalundu Port – Uvira – Bukavu Road Project (139Km) in the Democratic Republic of Congo.	TPA	Kalundu , Uvira ,Bukavu Democratic Republic of Congo	TBD	The project involves the construction and upgrading of the 139 km Kalundu Port–Uvira–Bukavu road corridor in the Democratic Republic of Congo (DRC), aimed at improving regional connectivity, facilitating trade and strengthening access to Kalundu Port. The project will include road construction, upgrading, drainage, bridges and associated road infrastructure	DBFOMT	TBD	TBD
24	Development of New Container Terminal in the Dar es Salaam Port.	TPA	Dar es Salaam	TBD	The project involves the development of a new container terminal at the Port of Dar es Salaam, aimed at increasing container-handling capacity, improving operational efficiency, and supporting the growth of regional and international trade. The project will include the construction of container berths, storage yards, cargo-handling facilities, access roads, utility services, and associated port infrastructure.	DBFOMT	TBD	TBD
25	Rehabilitation of the Ports of Kalemie and Moba (DRC), Kalemie Port to Lubumbashi in Eastern DRC.	TPA	Kalemie and Moba (DRC), Kalemie Port to Lubumbas DRC.	TBD	The project involves the development of a new container terminal at the Port of Dar es Salaam, aimed at increasing container-handling capacity, improving operational efficiency, and supporting the growth of regional and international trade. The project will include the construction of container berths, storage yards, cargo-handling facilities, access roads, utility services, and associated port infrastructure.	DBFOMT	TBD	TBD
26	Expansion and Modernization of Airports in Mwanza, Arusha, Musoma, Kigoma and Lindi	TAA	Mwanza, Arusha, Musoma, Kigoma and Lindi	TBD	The project involves the expansion and modernization of airports in Mwanza, Arusha, Musoma, Kigoma, and Lindi, aimed at improving air connectivity, enhancing passenger safety and comfort, and supporting tourism, trade, and regional economic development. The project will include upgrades to runways, terminals, taxiways, aircraft parking areas, navigation and lighting systems, security facilities, and associated airport infrastructure.	DBFOMT	TBD	TBD

27	Construction and Operationalizatio n of supporting facilities e.g. hotels along the SGR lines	TRC	Along SGR	TBD	The project involves the construction and operationalization of supporting facilities, including hotels, along the Standard Gauge Railway (SGR) lines. It aims to enhance passenger convenience, promote tourism and commercial activity, and support the efficient operation of the railway network. The project will include the development of accommodation facilities, restaurants, retail spaces, parking areas, utility services, and other associated hospitality infrastructure.	DBFOMT	TBD	TBD
28	321 MW Kikonge Multipurpose Dam, Hydropower and Irrigation Project, And Associated transmission Line	TANESCO	Kikonge Ruhuhu River	738	The Kikonge Multipurpose Dam Project involves the development of a 321 MW hydropower plant with a large dam on the Ruhuhu River, alongside a 4,200-hectare irrigation scheme, and a 220 kV transmission line to connect the power to the national grid. The project is a joint initiative by the Tanzania Electric Supply Company (TANESCO) and the National Irrigation Commission (NIRC) on behalf of the Government of Tanzania, reflecting its multipurpose nature in delivering both energy and irrigation benefits	TBD	Competitive bidding	TBD
29	100 MWp Manyoni Solar Pv Project	TANESCO	Singida Region	TBD	Manyoni Solar Power Plant (100MWp) is situated within Manyoni District, in Singida Region of Tanzania, approximately 9 km from the center of Manyoni City and 100 km from Dodoma City. The site was chosen after a thorough evaluation process that considered several important factors, including the quality of the solar resource, the availability of suitable land, and proximity to existing grid infrastructure capable of supporting direct grid injection at 220 kV. The selected site covers about 147 hectares and was carefully chosen for optimal solar exposure.	TBD	Competitive bidding	TBD
30	358 MW Ruhudji Hydropower Project	TANESCO	Ruhudji	867.4	The project involves the development of the 358 MW Ruhudji Hydropower Project to generate reliable and sustainable electricity from hydropower resources. The project will include construction of the hydropower plant, dam and associated water infrastructure, power transmission facilities and other supporting	TBD	TBD	TBD

					infrastructure to increase Tanzania's electricity generation capacity.			
31	Operation and Maintenance of Kigongo–Busisi Bridge	TANROAD	MWANZA	TBD	The project involves the operation and maintenance of the Kigongo–Busisi Bridge to ensure efficient and reliable transport services. The project aims to improve connectivity, reduce travel time and traffic congestion, enhance the movement of people and goods, and support trade, investment, and socio-economic development in the connected regions	O&M	TBD	
32	Development of 370 Residential Units – Canadian Village, Masaki	Tanzania Buildings Agency (TBA)	Masaki, Dar es Salaam	TBD	Development of 370 residential housing units under a PPP arrangement.	DBFOMT	Competitive bidding	TBD
33	Development of 360 Residential Units – Magomeni Kota Housing Project	Tanzania Buildings Agency (TBA)	Magomeni Kota, Dar es Salaam	TBD	Development of 360 residential housing units under a PPP arrangement.	DBFOMT	Competitive bidding	TBD
34	Development of 304 Residential Units – Kinondoni Kota Housing Project	Tanzania Buildings Agency (TBA)	Kinondoni Kota, Dar es Salaam	TBD	Development of 304 residential housing units under a PPP arrangement.	DBFOMT	Competitive bidding	TBD
35	Development of 3,200 Residential Units – Nzuguni Housing Project	Tanzania Buildings Agency (TBA)	Nzuguni, Dodoma	TBD	Development of 3,200 residential housing units under a PPP arrangement.	DBFOMT	Competitive bidding	TBD
36	Development of 56 Residential Units – Kaloleni Housing Project	Tanzania Buildings Agency (TBA)	Kaloleni, Arusha	TBD	Development of 56 residential housing units under a PPP arrangement.	DBFOMT	Competitive bidding	TBD

37	Development of 120 Residential Units – Simeoni Sekei Housing Project	Tanzania Buildings Agency (TBA)	Simeoni Sekei, Arusha	TBD	Development of 120 residential housing units under a PPP arrangement.	DBFOMT	Competitive bidding	TBD
38	Development of 70 Residential Units – Ghana Area Housing Project	Tanzania Buildings Agency (TBA)	Ghana Area, Mwanza	TBD	Development of 70 residential housing units under a PPP arrangement.	DBFOMT	Competitive bidding	TBD
39	Mixed-Use Residential and Commercial Development – Former Kamata Area	Tanzania Buildings Agency (TBA)	TBD	TBD	Mixed-use development comprising residential units and commercial space.	BOT	Competitive bidding	TBD
40	Mixed-Use Residential and Commercial Development – Mission Kota	Tanzania Buildings Agency (TBA)	Geita	TBD	Mixed-use development comprising residential units and commercial space.	BOT	Competitive bidding	TBD
41	Commercial Office Development – Oysterbay	Tanzania Buildings Agency (TBA)	Oysterbay, Dar es Salaam	TBD	Development of a commercial office building in Oysterbay.	Lease / BOT	Competitive bidding	TBD
42	222 MW Rumakali Hydropower Project And associated Transmission Line	TANESCO	Njombe Region-Southern Tanzania	634.5	construction of new 64 km, 220 kV double-circuit transmission line from Rumakali power station to Mbeya substation and Construction of 222 HPP	DBFOMT	Competitive bidding	TBD
43	Construction of Perishable Cargo Cold Storage	Tanzania Airports Authority (TAA)	Songwe Airport	TBD	Construction and operation of a cargo terminal with cold storage facilities for perishable products.	DBFOMT	Competitive bidding	TBD

	Terminal – Songwe Airport							
44	Development of a Four-Star Hotel and Conference Centre – Mwanza Airport	Tanzania Airports Authority (TAA)	Mwanza Airport	TBD	Development and operation of a four-star hotel and conference centre.	DBFOMT	Competitive bidding	TBD
45	Construction of Modern Slaughterhouse – Moshi Municipality	Moshi Municipal Council	Moshi	TBD	Construction and operation of a modern slaughterhouse facility.	BOT	Competitive bidding	TBD
46	Lower Ruvu Climate Resilient Water Scarcity and Expansion Project.	Ministry of Water	Ruvu	111,5	The project aims to expand and upgrade the Lower Ruvu water supply system to address increasing water demand and scarcity, enhance climate resilience, and improve the reliability and sustainability of potable water supply to Dar es Salaam and surrounding areas.	BOT	Competitive bidding	TBD
47	Development of Modern Grain Silos and Warehouses (480,000 Tons Capacity)	National Food Reserve Agency (NFRA)	Songea and Songwe	TBD	Development and operation of modern grain silos and warehouse infrastructure.	DBFOMT	Competitive bidding	TBD
48	Operation and Maintenance of the Tanzanite Bridge	TANROAD	DAR ES SALAAM	TBD	The project involves the operation and maintenance of the Tanzanite Bridge to ensure efficient operations, improved traffic flow, enhanced road safety, and sustainable service delivery	O & M	Competitive bidding	TBD
49	Kilwa Fishing Port Development Project	Tanzania Fisheries Corporation (TAFICO)	Kilwa	TBD	Development and operation of fishing port infrastructure and associated facilities.	Concession	Competitive bidding	TBD

50	Longline Fishing Vessel Operations Project	Tanzania Fisheries Corporation (TAFICO)	Dar es Salaam / EEZ	TBD	Operation of longline fishing vessels under a PPP or joint venture arrangement.	Lease / Joint Venture	Competitive bidding	TBD
51	Development of Kilimanjaro International Trade Centre	TANTRADE	Kilimanjaro	319.2	Development and operation of an international trade centre.	BOT	Competitive bidding	TBD

6. INVESTOR INFORMATION

This publication is intended to improve visibility of Tanzania's PPP investment opportunities and facilitate engagement between Government institutions and prospective private sector partners. Project-specific information, transaction status and opportunities for participation should be confirmed with the relevant Contracting Authority and the Public Private Partnership Centre.

APPENDIX 1: PRIORITY INVESTMENT OPPORTUNITIES FOR PPP PROJECTS.

Table 4: Priority PPP Investment Opportunities for Private Sector Partnership								
S/N	**Name of Projects**	**Contracting Authority**	**Location**	**E. CAPEX - $ in Mil**	**Project Description**	**Proposed Structure**	**Procurement Mode**	**Yr**
A	**PROCUREMENT STAGE**							
1	Construction of Lot 2 (Chalinze - Morogoro 84.9 Km)	TANROAD	Chalinze to Morogoro districts in Coast and Morogoro Region	350	The Chalinze-Morogoro road is congested and in poor condition, requiring urgent attention. The increased traffic volume is due to economic growth within the country and neighboring nations. Currently, the travel time from Chalinze to Morogoro is 2 hours, but with the proposed expressway, it will be reduced to 1 hour. The current road condition has raised travel time and vehicle operation costs. The project, to be implemented under a PPP arrangement, will involve constructing a 4-lane carriageway with a design speed of 120 km/h, modern rest areas, international standard service levels, free interchanges, and e-tolling at entry and exit points.	DBFOMT	Competitive bidding	25
B	**FEASIBILITY STUDY STAGE (FS)**							
1	Developing the Convention Buoy Mooring Project at Dar es Salaam and Tanga Port	TPA	Dar es salaam AND Tanga	6	The project involves installing standalone greenfield assets to discharge liquid petroleum gas (LPG) from large refrigerated ships offshore at Dar es Salaam and Tanga ports. It will cover the south-western part of Mji Mwema Bay in Dar es Salaam and the Chongoleani Peninsula in Tanga. The project addresses port capacity constraints at the	DBFOMT	Competitive bidding	15

					Kurasini Oil Jetties (KOJ) in Dar es Salaam and the lack of public LPG discharge facilities at Tanga.			
2	Strengthening Cancer Control Services In Tanzania	ORCI	Mloganzila in Dar es Salaam and Uyole campus of Mbeya	55	The project aims to develop a modern, well-organized oncology center at ORCI Mloganzila and at the Cancer Center in Mbeya Zonal. Both are expected to serve more patients (including cancer and related cases) than the current setup, equipped with advanced facilities for cancer screening, diagnosis, and treatment.	DBFOMT	Competitive bidding	20
3	Spine and Injury Treatment Rehabilitation Centre Mbweni (MOI SITRC)	MOI	Dar es Salaam - BWENI	60.88	Muhimbili Orthopedic Institute (MOI) is the national referral super-specialist physical rehabilitation health facility established on June 17, 1996, under Act No. 7 of the Parliament. It is responsible for providing primary, secondary, and tertiary care for preventive and curative health services in the fields of orthopedics, traumatology, and neurosurgery. MOI, as a tertiary-level hospital, manages patients with orthopedic, neurosurgical, and traumatic conditions requiring specialized treatment who are referred from all over the country. MOI collaborates very closely with Muhimbili University College of Health and Allied Sciences (MUHAS) and Muhimbili National Hospital (MNH) in its day-to-day operations.	DBFOMT	Competitive bidding	25
C	**PRE FEASIBILITY STUDY STAGE**							

1	Service Provision for Dar Rapid Transit Project Phase 3	Dar es Salaam Rapid Transit (DART)	Dar es Salaam	135.5	The project is part of the Six-Phased DART System Master Plan. The project will include the purchase of CNG buses, operating systems, and maintenance of buses. It covers the area from the Old Postal Office in the city center to the Gongo la Mboto neighborhood in the southwest of the city, with a branch from Kariakoo through Uhuru to TAZARA. The corridor consists of Maktaba Street, Bibi Titi Mohammed Street, and Julius Nyerere Road.	O&M	Competitive bidding	12
2	Service Provision for Dar Rapid Transit Project Phase 4	Dar es Salaam Rapid Transit (DART)	Dar es Salaam	135.5	The project is part of the Six-Phase DART System Master Plan. The project will involve the purchase of CNG buses, operating systems, and maintenance of buses. It covers Bibi Titi Mohamed Road from Maktaba Street junction to Ohio Street junction (0.23 km). The phases continue with Ali Hassan Mwinyi Road (from the junction of Ohio Street to Morocco) (5.92 km) and New Bagamoyo Road from Morocco junction to Tegeta (DAWASA Daladala Bus Station) (20 km). Finally, the phase includes a spur of Sam Nujoma Road from its junction with New Bagamoyo Road to Ubungo junction (4 km).	O&M	Competitive bidding	12
3	Construction of IRDP Student Accommodation Project	Institute of Rural Development Planning-IRDP	Dodoma Municipality	5.5	Resolve students' accommodation problem; increase affordability/lower hostel rates; modern and improved infrastructure; provision of better facilities to students; improved safety & security for students; increase in income of the institute; increase in enrolment of students in institute, increased employment opportunities.	DBFOMT	Competitive bidding	30

4	Construction of Hostels at Tanzania Institute of Accountancy – Mbeya Campus	Tanzania Institute of Accountancy (TIA)	Mbeya	2.2	Resolve students' accommodation problem; increase affordability/lower hostel rates; modern and improved infrastructure; provision of better facilities to students; improved safety & security for students; increase in income of the institute; increase in enrolment of students in institute, increased employment opportunities	DBFOMT	Competitive bidding	30
5	Construction of Hostels at Tanzania Institute of Accountancy – Dar Campus	Tanzania Institute of Accountancy (TIA)	Dar es Salaam	6.6	Resolve students' accommodation problem; increase affordability/lower hostel rates; modern and improved infrastructure; provision of better facilities to students; improved safety & security for students; increase in income of the institute; increase in enrolment of students in institute, increased employment opportunities	DBFOMT	Competitive bidding	30
6.	Operation of Vessel and Maintenance Agreement (O&M) Between Tafico And Dar Es Salaam Merchant Group (Dmg)	Tanzania Fisheries Corporation (TAFICO)	Dar es Salaam	8	The long-line fishing project will operate in the Indian Ocean within both the territorial waters and the exclusive economic zone (EEZ) of the United Republic of Tanzania. The common fish species in the EEZ include tuna and various tuna species, marlin, swordfish, skipjack, and sharks.	PPP- joint ventures	Competitive bidding	10
7	Construction of Lifelong Learning Centre (Udsm- Llc)	University of Dar es Salaam (UDSM)	Dar es Salaam	TBD	Lifelong Learning Centre (LLC) is an establishment which provides for opportunities in continues short-term learning without providing formal qualifications. it will serve as a Centre for coordination and provision of lifelong learning throughout the East and Southern African region. D	**CONCEPT NOTE STAGE**							
1	Mtwara – Mbambabay – Mchuchuma/Liganga Sgr Railway Line (1,000 Km)	Tanzania Railway Corporation (TRC)	Mtwara	5.6 Billion	The project aims to promote sustainable mobility along the Mtwara corridor by constructing a new railway line from Mtwara to Songea, with spurs to Mchuchuma and Mbamba Bay. Ultimately, it will unlock the southern regions of Tanzania that are rich in agriculture and minerals. The proposed railway spans approximately 1,000 km, running from Mtwara Port on the Indian Ocean to Mbamba Bay (Ameliabay) in Lake Nyasa, with spurs connecting to the mineral fields of Mchuchuma coal and Liganga iron ore mines in southwestern Tanzania.	DBFOMT	Competitive bidding	TBD

2	Development of Railway Network for Dar Es Salaam Commuter Train Services (160 Km)	Tanzania Railway Corporation (TRC)	Dar es Salaam	8,000	The project is situated in Dar es Salaam, a city covering a total area of 1,393 square kilometers on the eastern shore of the Indian Ocean. It serves as a major regional hub and gateway, featuring a port and a trading center. The construction of the commuter railway network will include route options that connect Dar es Salaam and its surrounding municipalities and towns. This project aims to address transportation challenges by reducing congestion and providing faster, more convenient, and more affordable passenger transportation for the city.	DBFOMT	Competitive bidding	TBD
3	Development of the 1,108 km Tanga Port–Arusha–Musoma Standard Gauge Railway (SGR) with Interconnection to the Dar es Salaam–Kigoma SGR Network	Tanzania Railway Corporation (TRC)	Tanga/Arusha/ Musoma	2782	The project is expected to promote sustainable rail transport along the Tanga–Arusha–Musoma corridor by facilitating the efficient movement of freight from the Port of Tanga, while reducing road freight traffic, congestion, and associated logistics costs	DBFOMT	Competitive bidding	TBD
4	Construction of Commercial Complex and Other Facilities At Kilimanjaro International Airport (Kia)	Tanzania Airport Authority (TAA)	KIA	12	The project aim is to construct Shopping and Leisure Center in KIA at Hai district. The business plan examines the variant of project execution - Leasing commercial space of the Shopping and Leisure Center with the aim of providing esteemed customers with a wide range of services and generates more revenues to the Company.	DBFOMT	Competitive bidding	15
5	Development of CIP Terminal Building and Related Infrastructure Facilities at Kilimanjaro	Tanzania Airport Authority (TAA)	KIA	10	The commercially important person (CIP) terminal building and its associated infrastructure including car park will cover about 4 hectors of land. The terminal will provide for private and exclusive services	DBFOMT	Competitive bidding	15

	International Airport (Kia)				including shower facilities, exchange room, conference facilities as well as an internet zone equipped with PCs and a printer. Also, a parking space for 50 cars.			
6	Mwl. J.K. Nyerere Trade Fair Ground Project (Sabasaba Grounds)	TANTRADE	Kilwa Road, Dar-es-Salaam Region	347.6	The re-develop Mwl. J.K. Nyerere Trade Fair Grounds (Sabasaba Grounds) that will provide state-of-the-art exhibition facilities and infrastructure to meet the needs of national and international exhibitors	DBFOMT	Competitive bidding	TBD
7	Construction of Tunduma/Nakonde Smart Transit Border	TANROAD	Tunduma /Nakonde Between Tanzania and Zambia	TBD	This project aims to decongest the border and improve the efficiency of cross-border trade and mobility between the two countries, addressing the challenges of long waiting times, inadequate infrastructure, and complex customs procedures. The Tunduma/Nakonde border is a critical trade point between Tanzania and Zambia, facilitating significant cross-border movement of goods, services, and people. However, the border has been facing congestion issues, which have led to delays, inefficiencies, and disruptions in trade and travel.	DBFOMT	Competitive bidding	TBD
8	Upgrading of Morogoro to Dodoma Highway (Toll Road)-260 Km to four lanes	TANROAD	Morogoro to Dodoma Region	TBD	A key road in the Central Corridor connecting Dar es Salaam, the country's commercial hub, with Dodoma, the national capital. The project aims to improve capacity and accommodate the increasing traffic demand along this strategic route.	DBFOMT	Competitive bidding	TBD

9	Upgrading of Handeni – Kiberashi – Chemba – Kwimoro – Singida Road (384 km) to Bituminous Standard	TANROAD	Handeni (Tanga)-Singida	TBD	A strategic transport corridor providing the shortest route from the Port of Tanga to the hinterland, including Eastern DRC, Rwanda, and Burundi. The road is intended to serve as a dedicated toll route for heavy trucks, improving regional trade and freight movement	DBFOMT	Competitive bidding	TBD
10	Upgrading of Chalinze – Segera – Tanga Road (240 km) to Four Lanes	TANROAD	Coast Region-Tanga	TBD	A major road linking the Northern Corridor with the Port of Tanga. The project aims to increase road capacity, improve traffic flow, and facilitate trade and economic activities in the northern region.	DBFOMT	Competitive bidding	TBD
11	Kitonga Escarpment Bypass (27 km)	TANROAD	IRINGA	TBD	The project aims to improve traffic safety and efficiency by diverting vehicles away from the existing Kitonga Escarpment, which is prone to traffic congestion, accidents, and delays due to its steep gradients and sharp curves.	DBFOMT	Competitive bidding	TBD
12	Expressway from Dar es Salaam Port to Kibaha (42 km)	TANROAD	DAR ES SALAAM	TBD	The project will provide a high-capacity expressway to reduce truck congestion between the Port of Dar es Salaam and Kibaha, improving freight mobility, reducing travel time, and enhancing logistics efficiency.	DBFOMT	Competitive bidding	TBD
13	Expressway from Dar es Salaam CBD to Julius Nyerere International Airport (10 km)	TANROAD	DAR ES SALAAM	TBD	The project aims to improve connectivity between the Dar es Salaam Central Business District (CBD) and Julius Nyerere International Airport by reducing travel time, easing traffic congestion, and providing a reliable transport link.	DBFOMT	Competitive bidding	TBD

14	Kigamboni Bridge Near the Current Ferry Crossing	TANROAD	Dar es Salaam Region	TBD	The Kigamboni Bridge is a major infrastructure project aimed at enhancing transportation across the Dar es Salaam region in Tanzania. It is designed to provide an alternative to the existing ferry service between the Kigamboni area on the southern side of Dar es Salaam and the central area of the city, which has faced congestion and inefficiency. The proposed bridge will significantly reduce travel time, improve road connectivity, and support economic activities in the region by facilitating smoother traffic flow	TBD	TBD	TBD
15	Water Supply Project from Lake Victoria to Dodoma via Singida	Ministry of Water	MWANZA-DODMA	2,000	This project aims to address the long-standing water scarcity challenge in Dodoma region (the nation's capital) and neighboring regions.	TBD	TBD	TBD
16	Water Supply Project from Rufiji River to Dar es Salaam	Ministry of Water	COAST REGION -DAR ES SALAAM	1,880	The Rufiji River water project is a strategic initiative crucial for water security in Dar es Salaam, the country's commercial hub. By connecting the city to this river with year-round high flow, the project will fully meet the water needs of over six million residents and industries, stimulate economic growth, and eliminate water-related obstacles to development.	DBFOMT	TBD	TBD
17	Construction and Renovation of Students Hostel at Water Institute	Water Institute	Dar es Salaam	7.2	Construction and renovation of student hostel at water institute, the proposed hostel will provide appropriate environment for living as well as studying, opportunities for informal, academic and social interchange, privacy and quite place where people are living in close proximity and are sharing facilities	DBFOMT	Competitive bidding	30
18	UNIVERSITY OF DAR ES SALAAM ICT PARK	University of Dar es Salaam (UDSM)	Dar es Salaam	125.7	The ICT Park is a "smart village" equipped with high-speed international internet and advanced ICT infrastructure. It aims to	DBFOMT	Competitive bidding	12

					bridge the gap between theoretical knowledge and practical market applications, supporting the growth of startups and fostering innovation. The park is designed to boost national wealth by promoting a competitive culture among its residents. It serves as a key hub for ICT production, offering essential services and facilities to both domestic and international companies. Positioned to attract major ICT firms, it is poised to become a central hub for technological development.			
19	Improvement of Water Supply and Sanitation In Vwawa and In Mlowo	Ministry of water	Vwawa, Tunduma and Mlowo Towns	21.6	Construction of treatment plant; construction of transmission main from Mgombezi Dam; construction of three storage tanks (2500m3) and construction of 250kms of water distribution network at Vwawa, Tunduma and Mlowo Towns.	DBFOMT	Competitive bidding	18
20	Improvement in Sewage and Sanitation Service In Tabora Municipal Council	Ministry of water	TABORA	50.446	The project aims to enhance public health and reduce environmental impact by providing eco-friendly sanitation services. It includes the construction of oxidation ponds in the Malolo and airport areas, expansion of sewer lines, pumping stations, treatment plants, and sludge disposal systems, as well as ensuring effluent quality.	DBFOMT	Competitive bidding	18
21	Construction And Operationalization Of Cold Storage Facility	Tanzania Fisheries Corporation (TAFICO)	Dar es Salaam	TBD	The TAFICO cold storage project is designed to provide cold storage services to fishing companies, artisanal fishermen, and food processors. Its goal is to support the growth of the fishing and food processing industries by offering high-quality cold storage. The project will offer three key services: exclusive cold storage, industrial cold storage, and individual cold storage	DBFOMT	Competitive bidding	10

22	Development of the Bagamoyo Port in the Mbegani Area (TPA)	TPA	Bagamoyo	2100	The project aims to develop a modern deep-sea port for handling containerized and imported vehicles, capable of accommodating Post-Panamax vessels. The project will include dredging, land reclamation, quay and berth construction, RTG yard facilities, road and rail infrastructure, utilities, ICT systems, port buildings and operational equipment, leveraging the deep-water access and land designated for EPZ developmen	DBFOMT	TBD	TBD
23	Construction of Kalundu Port – Uvira – Bukavu Road Project (139Km) in the Democratic Republic of Congo.	TPA	Kalundu, Uvira ,Bukavu Democratic Republic of Congo	TBD	The project involves the construction and upgrading of the 139 km Kalundu Port–Uvira–Bukavu road corridor in the Democratic Republic of Congo (DRC), aimed at improving regional connectivity, facilitating trade and strengthening access to Kalundu Port. The project will include road construction, upgrading, drainage, bridges and associated road infrastructure	DBFOMT	TBD	TBD
24	Development of New Container Terminal in the Dar es Salaam Port.	TPA	Dar es Salaam	TBD	The project involves the development of a new container terminal at the Port of Dar es Salaam, aimed at increasing container-handling capacity, improving operational efficiency, and supporting the growth of regional and international trade. The project will include the construction of container berths, storage yards, cargo-handling facilities, access roads, utility services, and associated port infrastructure.	DBFOMT	TBD	TBD

25	Rehabilitation of the Ports of Kalemie and Moba (DRC), Kalemie Port to Lubumbashi in Eastern DRC.	TPA	Kalemie and Moba (DRC), Kalemie Port to Lubumbasi DRC.	TBD	The project involves the development of a new container terminal at the Port of Dar es Salaam, aimed at increasing container-handling capacity, improving operational efficiency, and supporting the growth of regional and international trade. The project will include the construction of container berths, storage yards, cargo-handling facilities, access roads, utility services, and associated port infrastructure.	DBFOMT	TBD	TBD
26	Expansion and Modernization of Airports in Mwanza, Arusha, Musoma, Kigoma and Lindi	TAA	Mwanza, Arusha, Musoma, Kigoma and Lindi	TBD	The project involves the expansion and modernization of airports in Mwanza, Arusha, Musoma, Kigoma, and Lindi, aimed at improving air connectivity, enhancing passenger safety and comfort, and supporting tourism, trade, and regional economic development. The project will include upgrades to runways, terminals, taxiways, aircraft parking areas, navigation and lighting systems, security facilities, and associated airport infrastructure.	DBFOMT	TBD	TBD
27	Construction and Operationalization of supporting facilities e.g. hotels along the SGR lines	TRC	Along SGR	TBD	The project involves the construction and operationalization of supporting facilities, including hotels, along the Standard Gauge Railway (SGR) lines. It aims to enhance passenger convenience, promote tourism and commercial activity, and support the efficient operation of the railway network. The project will include the development of accommodation facilities, restaurants, retail spaces, parking areas, utility services, and other associated hospitality infrastructure.	DBFOMT	TBD	TBD

28	321 MW Kikonge Multipurpose Dam, Hydropower and Irrigation Project, And Associated transmission Line	TANESCO	Kikonge Ruhuhu River	738	The Kikonge Multipurpose Dam Project involves the development of a 321 MW hydropower plant with a large dam on the Ruhuhu River, alongside a 4,200-hectare irrigation scheme, and a 220 kV transmission line to connect the power to the national grid. The project is a joint initiative by the Tanzania Electric Supply Company (TANESCO) and the National Irrigation Commission (NIRC) on behalf of the Government of Tanzania, reflecting its multipurpose nature in delivering both energy and irrigation benefits	TBD	Competitive bidding	TBD
29	100 MWp Manyoni Solar Pv Project	TANESCO	Singida Region	TBD	Manyoni Solar Power Plant (100MWp) is situated within Manyoni District, in Singida Region of Tanzania, approximately 9 km from the center of Manyoni City and 100 km from Dodoma City. The site was chosen after a thorough evaluation process that considered several important factors, including the quality of the solar resource, the availability of suitable land, and proximity to existing grid infrastructure capable of supporting direct grid injection at 220 kV. The selected site covers about 147 hectares and was carefully chosen for optimal solar exposure.	TBD	Competitive bidding	TBD
30	358 MW Ruhudji Hydropower Project	TANESCO	Ruhudji	867.4	The project involves the development of the 358 MW Ruhudji Hydropower Project to generate reliable and sustainable electricity from hydropower resources. The project will include construction of the hydropower plant, dam and associated water infrastructure, power transmission facilities and other supporting infrastructure to increase Tanzania's electricity generation capacity.	TBD	TBD	TBD

31	Operation and Maintenance of Kigongo–Busisi Bridge	TANROAD	MWANZA	TBD	The project involves the operation and maintenance of the Kigongo–Busisi Bridge to ensure efficient and reliable transport services. The project aims to improve connectivity, reduce travel time and traffic congestion, enhance the movement of people and goods, and support trade, investment, and socio-economic development in the connected regions	O&M	TBD
